[Learn more.](#) Amazon Whether you're choosing to cut down on carbs or simply want to add more vegetables to your diet, a good spiralizer is an invaluable tool to have in your kitchen. There are two main classes of spiralizers: handheld and tabletop. Handheld spiralizers are great for small jobs, such as adding toppings to a salad or making noodles out of a single zucchini. But, for the most part, tabletop spiralizers require less effort and can handle more heavy-duty tasks. From the dozens of spiralizers we looked at, we whittled our list down to the following five spiralizers based on their track record of durability, ease of use, and versatility. Here are the best spiralizers: Updated on 7/28/2020 to edit prices, titles, links, and remove references and ratings from third-party sites because we've found them to be unreliable in the past. Spiralizer When your company's name is "Spiralizer," you kind of have to be at the top of your game. And, the Spiralizer 5-Blade Vegetable Slicer does not disappoint. The blades are made of high-carbon, cutlery-grade stainless steel, and the body is BPA-free acrylonitrile butadiene styrene (ABS), which is commonly used to make protective helmets. The five different blade options allow you to make "noodles" in a variety of different sizes. And, when they're not in use, you can store the blades in the base. This is the third generation of Spiralizer slicers, and it corrects issues of previous models, such as handles that break with harder veggies. The spiralizer measures 12.6 by 6.7 by 9.5 inches, so it doesn't take up much real estate on your counter and easily fits in a cupboard. All of the elements are dishwasher-safe, though we recommend handwashing the blades. Spiralizer stands behind this product with a "lifetime no-hassle replacement policy." There may be a bit of a learning curve for denser foods like sweet potatoes, though. Pros: Can handle just about any vegetables, cleanly feeds cut vegetables into a bowl Cons: May rock slightly during use, prone to staining OXO Aside from the blade, the OXO Good Grips Handheld Spiralizer is made of BPA-free plastic. It works best with vegetables that are straight, at least 1.5-inches thick, and no longer than 6 inches. It has two sections. The vegetable holder has tiny spikes that dig into the end of your veggies so you can get a better grip when you are down to the nub. And, the blade is housed within a cylinder that allows you to get a strong grip on the device without fear of cutting yourself. The OXO Good Grips Handheld Spiralizer is well-priced and produces sturdy vegetable noodles. But since it's manual, this spiralizer does require a little elbow grease. The spiralizer is also dishwasher safe, so it's very easy to clean. Pros: Compact, attractive design, easy to use Cons: Not as versatile as tabletop options OXO The OXO Good Grips 3-Blade Tabletop Spiralizer stands out with its lever-activated, heavy-duty suction cup that prevents slipping and wobbling while allowing for effortless repositioning. The unit is made of plastic with steel blades, which include a ribbon blade, a 1/4-inch fettuccine blade, and a 1/8-inch spaghetti blade. The blades produce noodles that hold their shape and don't break apart. Although the spiralizer is a bit expensive, it's well-built, so it should last you for years. Each blade is a different color, which is helpful when you're looking for the right blade during a large project and everything is covered in vegetable debris. All three blades fit in the small plastic case provided. OXO stands behind the quality of this spiralizer with a refund guarantee if the product malfunctions under "normal household use." Pros: Unparalleled suction for secure spiralizing, produces beautiful vegetable noodles Cons: Most expensive spiralizer in our guide Paderno For more than 15 years, the Paderno World Cuisine Spiralizer has been one of the top spiralizers. The body is made of BPA-free ABS plastic and the blades are stainless steel. The three blades that come with this model are the chipper blade for thick noodles and curly fries, straight blade for ribbons, and shredder blade for noodles that resemble spaghetti. Though the 3-blade model is the most popular, Paderno also offers a 4-Blade Folding Spiralizer, 6-Blade Spiralizer, 2-Blade Handheld Spiralizer, and more. A one-year limited warranty comes with this tool. Spiralize hard veggies such as zucchini, potatoes, beets, apples, and more easily with little waste. This spiralizer is also easy to clean. Pros: Requires very little effort, inexpensive, dishwasher safe Cons: Suction is not as strong as the OXO tabletop spiralizer Mueller What sets the Mueller Spiral-Ultra apart from the other spiralizers in this guide is its extra uses. In addition to the traditional spiralizing of veggie noodles and ribbons, this tool also juices, grates, and serves as a mandolin. A recipe e-book, citrus juicer attachment, protective mandolin vegetable holder, four-cup container, and four sharp 420-grade hardened stainless steel blades come with the spiralizer. The frame is made of BPA-free, food-grade ABS plastic, and the Spiral-Ultra is backed by a lifetime warranty. Since everything is collected in a container, there is little mess, and clean up and storage is easy. Also, this is the only tabletop device on our list that can be utilized easily by left-handed individuals. You just may need to use a little bit of elbow grease once you get to the end of your vegetable pieces. Pros: Features juicer and grater, built-in storage, ambidextrous, lifetime warranty Cons: Confusing instructions Hurom/Instagram Immersion blenders are a dream come true for the soup lover, nut-butter maker, or parent who prefers to DIY their own baby food. They're easy to use, don't take up much storage space, and rinse or wash clean without fuss. These are the best immersion blenders. The best juicers The nutritional benefits of starting your day with fruits and vegetables are undeniable, but so is the financial hit of being a juice bar regular. With a juicer, however, you can offset the cost of your healthy habit by squeezing your own greens at home. These are our top picks for the best juicers. The best toaster ovens Toaster ovens serve as a miniature version of the traditional oven and they offer an array of functions, including broiling, roasting, toasting, and convection cooking. If you want a great multipurpose appliance that will cook quickly and evenly, these are the best toaster ovens. The best espresso machines True espresso only comes from high-end machines, but now you can have your very own espresso machine at home. Investing in an espresso machine might be a daunting prospect, but if you're regularly hitting up Starbucks, it might pay for itself a whole lot quicker than you think. These are the best espresso machines. Home & Kitchen Reporter, Insider Reviews James is a Home & Kitchen Reporter for Insider Reviews, where he specializes in sleep, HVAC, and kitchen appliances. He has tested more than 30 mattresses from startups like Casper and legacy brands like Tempur-Pedic, using his background in experimental psychology to develop objective tests and evaluate comfort, support, motion transfer, and more. He authors our guide to the best mattresses. In addition to being Insider Reviews' mattress expert, James has extensively covered robot vacuums, air conditioners, air purifiers, and more within the HVAC space. He's tested more than 20 robot vacs from brands like iRobot and Roborock over the years and is no stranger to keeping his house at a chilly 60 degrees Fahrenheit for weeks on end all in the name of testing air conditioners. He's a multifaceted writer who has covered everything from health and fitness to consumer technology. His mission is to help people get the most value for their money by guiding them in making informed buying decisions. James is currently based in Lansing, Michigan, where he lives in "The Barn Mansion," a three-story Dutch colonial home, with his wife, two sons, two cats, and a rambunctious rat terrier. When James isn't testing products and writing for Insider, he's helping to run a popular local Facebook group, Lansing Foodies. See below for some of his work: The best mattress for every type of sleeper in 2021, according to our rigorous testing The 6 best robot vacuums we tested in 2021 The 6 best air conditioners we tested in 2021 The best Instant Pots and electric pressure cookers we tested in 2021 10 grilling essentials that chefs and pitmasters swear by for making the best BBQ The 5 best mattress toppers we tested in 2021 Contact info: jbrains@insider.com Learn more about how our team of experts tests and reviews products at Insider here.
